Notes: Location as a general parameter is a good idea since it is essentially a must. However, if the user gives a particular range, the LLM should be able to take that into account	User looking for an experience (Birthday celebration, anniversary, or team building event)	User looking for a specific food item (lasagna, drink)	Looking for restaurant with specific cuisine
User has a dietary restriction (low sugar, high protein)	Exists?/Location - 5 pts Occasion Relevance - 10 pts (For a Bday party, does it suggest a place known to hold Bday celebrations, like Cheesecake Factory) Taking into consideration Dietary restrictions - 10 pts (Does it suggest restaurants with plenty of veg options, or only a few (steakhouse with veg sides))	Exists?/Location - 5 pts Taking into consideration Dietary restrictions - 10 pts (Does it suggest restaurants with plenty of veg options, or only a few (steakhouse with veg sides)) Menu Item (10 pts) - Is it a featured item, are there multiple varieties of the option, does it have good reviews, good value?	Exists?/Location - 5 pts Taking into consideration Dietary restrictions - 10 pts (Does it suggest restaurants with plenty of veg options, or only a few (steakhouse with veg sides)) Taking Cuisine Preference into Account - 10 pts .
User looking for a certain vibe	Exists?/Location - 5 pts Occasion Relevance/Vibe consideration - 20 pts (For a team building event, does it suggest a places that have large portions that can be shared and does the user preference matches up with places known for a specific vibe)	Exists?/Location - 5 pts Vibe consideration - 10 pts (Does the user preference matches up with places known for a specific vibe? Cheesecake Factory - Formal yet jovial, McDonald's - easygoing and casual) Menu Item (10 pts) - Is it a featured item, are there multiple varieties of the option, does it have good reviews, good value?	Exists?/Location - 5 pts Vibe consideration - 10 pts (Does the user preference matches up with places known for a specific vibe? Cheesecake Factory - Formal yet jovial, McDonald's - easygoing and casual) Taking Cuisine Preference into Account - 10 pts
User has a certain condition / need (kids, high chair, wheelchair) Note: this is different than dietary restrictions because it also includes disabilities and special accommodations that may be applicable.	Exists?/Location (5 pts) Accomodation (10 pts) - Does the LLM take the accomodation into account and does the restaurant actually provide it (Not sure how to validate for now) Occasion Relevance - 10 pts (Is a formal place suggested for an anniversary)	Exists?/Location (5 pts) Accomodation (10 pts) - Does the LLM take the accomodation into account and does the restaurant actually provide it (Not sure how to validate for now) Menu Item (10 pts) - Is it a featured item, are there multiple varieties of the option, does it have good reviews, good value?	Exists?/Location - 5 pts Accomodation (10 pts) - Does the LLM take the accomodation into account and does the restaurant actually provide it (Not sure how to validate for now) Taking Cuisine Preference into Account - 10 pts
Location (can't be too far away) (takes a range maximum value)	Exists? (5 pts) Occasion Relevance - 10 pts (Is a formal place suggested for an anniversary) Location - 10 pts (Is it within range, if not, how far off)	Exists? (5 pts) Location (10 pts) - Is the place within range and if not, how far off is it? Menu Item (10 pts) - Is it a featured item, are there multiple varieties of the option, does it have good reviews, good value?	Exists?/Location - 5 pts Location (10 pts) - Is the place within range and if not, how far off is it? Taking Cuisine Preference into Account - 10 pts
Price (low budget or not) (takes a range)	Exists?/Location (5 pts) Price Consideration (10 pts) - Does the restaurant fall within the given price range, based on price of entrees, sides, value (dollar per pound), discounts, price per head, etc. Occasion Relevance - 10 pts (Is a formal place suggested for an anniversary, for example)	Exists?/Location - 5 pts Price Consideration (10 pts) - Does the restaurant fall within the given price range, based on price of entrees, sides, value (dollar per pound), discounts, price per head, etc. Menu Item (10 pts) - Is it a featured item, are there multiple varieties of the option, does it have good reviews, good value?	Exists?/Location - 5 pts Price Consideration (10 pts) - Does the restaurant fall within the given price range, based on price of entrees, sides, value (dollar per pound), discounts, price per head, etc. Taking Cuisine Preference into Account - 10 pts
Service (nice staff, time for food, stars?)	Exists?/Location (5 pts) Service Consideration (10 pts) - How well is preference accomodated? Can be seen through Yelp reviews, average wait times on website, etc. Occasion Relevance - 10 pts (Is a formal place suggested for an anniversary)	Exists?/Location (5 pts) Service Consideration (10 pts) - How well is preference accomodated? Can be seen through Yelp reviews, average wait times on website, etc. Menu Item (10 pts) - Is it a featured item, are there multiple varieties of the option, does it have good reviews, good value?	Exists?/Location - 5 pts Service Consideration (10 pts) - How well is preference accomodated? Can be seen through Yelp reviews, average wait times on website, etc. Taking Cuisine Preference into Account - 10 pts
Parking (really busy would be hard to get parking) (Yes or No, public or not)	Exists?/Location (5 pts) Parking Consideration (10 pts) - How well is ample parking considered? (Restaurants in a large complex with large parking space vs roadside restaurants with no dedicated parking) Occasion Relevance - 10 pts (Is a formal place suggested for an anniversary)	Exists?/Location (5 pts) Parking Consideration (10 pts) - How well is ample parking considered? (Restaurants in a large complex with large parking space vs roadside restaurants with no dedicated parking) Menu Item (10 pts) - Is it a featured item, are there multiple varieties of the option, does it have good reviews, good value?	Exists?/Location - 5 pts Parking Consideration (10 pts) - How well is ample parking considered? (Restaurants in a large complex with large parking space vs roadside restaurants with no dedicated parking) Taking Cuisine Preference into Account - 10 pts .

Narrowed Down Criterion:

Vibe & Service (Atmosphere)

Location and Parking (Convenience)

Dietary Restriction & Wheelchair-type needs (Accomodations)

Affordability
